RE: Our File 582-765 USSR
PM No. 588

Dear Les:

We have received a further Official Action in the above case and enclose a photoprint copy of the translation of the same. You will note that a reply should be filed not later than November 16, 1977 and we await your instructions in this respect.

In the Action the Committee indicates that no comparative data between the claimed subject matter and the principle U.S. patent reference has been provided to them and accordingly, they conclude that either the claims should be severley restricted or presumably the supporting data be filed.

Very truly yours,

George J. Brandt, Jr.
